Sunrise Center North Therapeutic Riding Program

Sunrise North is a not-for-profit therapeutic riding program specializing in services that enhance the quality of life for children and adults with special needs by using equine oriented activities for cognitive, physical, emotional, and social well being.

Programs include, but are not limited to the following:

Special Needs Therapeutic Horseback Riding Program

This program offers the opportunity to benefit from the movement of a horse in a controlled and safe environment. Therapeutic riding is a wonderful, emotional, physical and social activity for the disabled person. Many individuals with physical disabilities have seen vast improvement in core strength, flexibility and balance from our program. Often riders with mental disabilities improve his/her cognitive comprehension. Although the movement of the horse has proven benefits to the body and mind, the bond between the horse and rider cannot be put into tangible terms. We look forward to working with each rider and his/her individual goals.

Horses for Heroes

This unique program provides equine therapy for wellness and rehabilitation to disabled veterans. Horses for Heroes programs are endorsed by the Professional Association of Therapeutic Horsemanship International (PATH Intl)

Autistic Musical Class on Horseback

The songs will be interactive with the riders while the movement of the horse along with the repetition of the songs can be soothing to an autistic individual.

Seniors in Saddles

The classes will be structured to help the senior with the following areas by grooming and riding the horse: increased blood circulation, increase liver function and digestion as well as stimulation of the internal organs, help bone-density and muscle mass, and keep the mind sharp.

Sunrise Center North therapeutic riding instruction is offered year-round following the Ellis Equestrian Center's lesson session schedule. For more information, contact:
