

Features

Four hundred acres with a mile of frontage along the Fox River, Hoover Forest Preserve currently has 6.6 miles of trails available for meandering along creeks and ravines.

Family Campsites are available for up to 6 people. **Group Campsites** and cozy, cottage-style **Bunkhouses** are ideally suited for your scout group, church or business retreat, family reunion or celebration and can accommodate up to 32 people. We have ADA compliant facilities.

Environmental practices are used throughout Hoover Forest Preserve. The Hoover Lagoon system treats wastewater on-site to meet rigorous EPA standards. Increased natural ventilation and ceiling fans, low-VOC varnishes and paints enhance indoor air quality. Most of the existing building structures were retained, recycled or salvaged for re-use.
