Summer Camps 2024

Ages 4–Entering Kindergarten

Animal Architects *Half Day*

Have you ever been curious about how animals make their homes? They were the first ever architects in the world! For millions of years they have been perfecting the art of construction and creating structures that helped them survive.

Campers will explore how animals build structures such as (ant) nests, shells, spider webs, dams, and more! Using biomimicry, they will be challenged to create their own structures that their favorite creatures might enjoy!

Session II: July 22 - 26

9 am -12 pm

Price: \$145

Entering Grades 1-3

New Session - Now Open!

Let's Wing It *Full Day*

Birds, bats, and insects all have wings, but do they all use their wings the same way? Spend a week with us looking up as we learn about fabulous winged creatures.

Session III: July 22 – 26

9 am - 2:30 pm

Price: \$220

Entering Grades 4-6

Look Mom, No Spine *Full Day*

Snails, slugs, worms, spiders, centipedes, pill bugs—what do they all have in common? They have no backbone! Spend the week scouring the woods and the prairies for many different spineless creatures.
